Appearance                      Yellow Transparent solid  
CAS No.                            91081-53-7

#### PRODUCT SPECIFICATIONS

| Product specification         | Typical Properties                           |  |
|-------------------------------|--|--|
|                               | Cadenza 0115                                 | Cadenza 0110                                 |
| Type                          |  |  |
| Color Max.(Gardner )          | 6  | 7  |
| Softening Point.(R/B Method): | 88°C   | 90°C   |
| Acid Value (mgKOH/g):         | 155  | 145  |
| Crystal trend (Min. Hours)    | 24   | 72   |
| Test method                   | 5g Acetone and 5g Resin,<br>Room temperature | 3g Acetone and 7g Resin,<br>Room temperature |

#### FORM OF SUPPLY

*25Kg. net each sealed plastic woven-ribbon bag,  
25Kg. net each carton box  
225kg net each drums.*

#### STORAGE CONDITIONS:

*Stored in Cool, dry and ventilated location. Protected from light and covered with nitrogen in container.*

*Shelf life: Two years with proper storage.*
