

## TECHNICAL DATA SHEET

### Liquid Gum Rosin Cadenza 1320

#### GENERAL PRODUCT DESCRIPTION

*CADENZA 1320 is kind liquid rosin. It made from the esterification of gum rosin and triethylene glycol, specially manufactured to be used as tackifier in the adhesive industry.*

Appearance	Viscous liquid
Colour	Light yellow
Odour	Characteristic
CAS No.	8050-25-7
EINECs No.:	23 24 783

#### PRODUCT SPECIFICATIONS

Product specification	Typical Properties
Solubility ( with benzene1:1 )	clear
Color	4max.
Acid Value , mgKOH/g	20±2
Viscosity of molten 20°C mps	40000-55000

*\*We can adjust viscosity, color and acid value according customer' s requirement.*

#### APPLICATIONS

*Is recommended for use as tackifier in: Floor coating adhesive, Permanent tack hot melt adhesives.*

#### FORM OF SUPPLY

*Net wt. 200KGS.Packing in gallons galvanized iron drums*

#### STORAGE CONFITIONS:

*Stored in Cool, dry and ventilated location. Protected from light and covered with nitrogen in container.*

*Shelf life: Two years with proper storage.*
